

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Lines 2,3, 4, 42,51,61,85: Since applications marked as approved, in payment ,denied or withdrawn in previous quarters may be reconsidered due to a change in borrower circumstances, some unique borrower counts may not sum in a quarter-over-quarter fashion.

Two PRRLE and two MPP loans changed status from approved / in payment to withdrawn which reduced the cumulative column of Number of Unique Borrowers Receiving Assistance by 4 borrowers, but did not affect the QTD column. These loans changed the counts for the following counties: Durham, Guilford, Johnston, and Polk.

Lines 121-122, 125-126. The above changes, the withdrawn and denied cases, causing Hispanic or Latino to decrease by 1 and Not Hispanic or Latino to decrease by 3 and Male and Female cumulative borrower counts to decrease by 2 each. There was no change to the QTD column.

Lines 113-119 & 129-135: Borrower can choose more than one Race designation, so total may not equal Total Borrowers Receiving Assistance, Line 2.
